

IAFE's Investor Risk Committee Invites You to Participate in a Workshop on Transparency and Disclosure for Hedge Funds

This workshop is part of a series of meetings hosted by the Investor Risk Committee (IRC) in an effort to bridge the gap between institutional investors, hedge-fund managers, and other interested groups. Our objective is to have a lively, interactive and *relevant* debate with a substantial contribution from the floor. The workshop will be led by Leslie Rahl, President, Capital Market Risk Advisors and the US Chair of the IRC, and the Mark Anson, Chief Investment Officer, CalPERS and IRC Steering Group Member. Part of the discussion will focus on the work of the IRC's Convertible Arbitrage and Equity Long/Short Subcommittees to create a standardized risk profile for use by hedge funds which don't, won't or can't provide position level transparency.

Meeting Details

Thursday, September 26 at 5:30

Rainbow Room

30 Rockefeller Center

49 West 49th Street (between 5th + 6th Avenues)

The workshop will begin promptly at 5:30, following the IAFE's Investment Forum on Hedge Funds.

RSVP
