### **About Theory**

Theory was founded in 1997 on the principle that women wanted to feel comfortable and sexy in modern clothing.

Theory defined its customer as the intelligent, active, and fashion-savvy woman. She wanted clothes to go with her to the office, with the family, on the weekend, and out at night. Placing a premium on fit and fabric quality, Theory created a collection that fused great separates and outfits together. Theory launched its Men's collection in 1999, bringing the same modern approach to men's dressing. A decade later, Theory continues to evolve as a product, as people, and as a company. Theory's growing global presence remains grounded in its principles—the focus has never been on advertising, marketing, or brand-building. Except, of course, through its clothes.
