Biography

Renée Haugerud, Managing Principal / CIO, Galtere Ltd.

Renee Haugerud is the Founder, Chief Investment Officer and Managing Principal of Galtere Ltd., a registered investment advisor that manages in excess of \$1 billion across several commodity-focused products. Its flagship commodity-based global macro strategy draws upon an array of markets and instruments to express real-asset-driven themes, using fundamental analysis for portfolio composition and proprietary technical value zones for trade implementation. Ms. Haugerud is noted for her profile and theme investment strategy as well as her disciplined approach to macro investing.

Throughout her thirty-year career, Ms. Haugerud has acquired expertise across all asset classes, through posts in the U.S., Canada, the U.K., Switzerland, Australia, and Hong Kong. She began her tenure in financial markets by trading cash commodity markets in the United States and Canada for Cargill Inc. and Continental Grain. Her interests in the relationship between financial markets and geopolitics led to her first international post in Geneva Switzerland, where she ultimately served as Cargill's Foreign Exchange Trading Manager.

During her 13-year career at Cargill, Ms. Haugerud developed expertise in a broad and diverse range of securities by assuming the positions of Manager of the US Fixed Income trading desk, Minneapolis, MN; Financial Division Manager of the Melbourne Australia Office; board membership of Cargill Australia; and finally Vice President/Structural Trading Manager at Cargill's corporate headquarters in Minneapolis, MN. Following her years at Cargill, Ms. Haugerud managed proprietary trading desks at institutions including Natwest Markets in Hong Kong and Hunter Douglas N.A. in the U.S.

Ms. Haugerud's insight into how global markets are affected by the psychology and relationships of macroeconomic trends makes her a sought-after speaker and panelist at global investment events. Ms. Haugerud has been interviewed on CNBC, CNN and the PBS Nightly Business Report, and has also been profiled in Barron's, eFinancial News, Forbes Magazine, ForbesLife Executive Woman, MAR Futures, Time and Trader Monthly. She is active in the community of women and business leaders, and an active advocate for numerous global education initiatives."

About Mirabaud & CIE Banquiers Privés

Mirabaud is an international financial group serving clients who value personal relationships and high-quality, high-performance services. Mirabaud has its roots in one of Switzerland's oldest banking institutions: Mirabaud & Cie, banquiers privés founded in Geneva in 1819. Originally a bank operating solely in Switzerland, Mirabaud has since developed its brand on three continents. In 2010, Mirabaud implemented its strategy of establishing itself in the Spanish market with a minority participation in the capital of Venture Finanzas. This company, which is active in fund brokerage, analysis, management and distribution, has offices in Madrid, Barcelona and Valencia. In 2010, Mirabaud will operate under its own brand on the Spanish market.

Today, as always, private banking is Mirabaud's core business. Mirabaud refuses to employ standardised solutions, with a view to offering the best possible risk-adjusted performance. It has always regarded its clients as unique, offering them personalised asset management strategies based on high-level expertise, and taking into account each client's specific needs, profiles and objectives.

Mirabaud has global teams for institutional management in London, Geneva, Zurich and Paris. For its institutional clients, Mirabaud positions itself as a player focused on performance creation, with local expertise and a strong client focus in Europe, based on global analysis and a global approach.

In the area of traditional management Mirabaud offers its clients a number of regional funds (North America, Europe, Asia, emerging markets) through our close contacts with the best investment fund managers.

As pioneers in alternative fund management, Mirabaud were one of the first Swiss banking institutions to market this service more than 30 years ago. Geneva-based specialists are in a position to offer regional and global funds of funds geared to defined strategies and covering all styles of liquid alternative management.

Mirabaud's intermediation services comprise three areas: brokerage, corporate finance and debt capital management. In order to avoid any conflict of interest, it always acts as an agency broker, i.e. as an intermediary and advisor, without investing for its own account. Its brokerage platforms are located: in Geneva, mainly for the Swiss market; in London, for UK activities and the European markets; and in Hong Kong, for the Asian markets. Thanks to the collaboration with Venture Finanzas, Mirabaud now also boasts highly-reputed expertise on the Spanish equity and bond markets and has a window on Latin America.

In 2006, Mirabaud added a specialisation in corporate finance, concentrating on renewable energies and new technologies.
