About SkillForce (www.skillforce.org)

SkillForce is a dynamic youth education charity that has been delivering alternative learning to Britain's most 'in need' young people for the past decade. Using the skills of ex-Service men and women, our instructors deliver courses to rebuild the self-esteem and confidence in our pupils enabling them to learn the life skills needed to create a positive future for themselves and make a constructive contribution to their own communities and society as a whole. SkillForce works in partnership with over 150 schools across England and Scotland to help more than 10,000 young people build their self-belief and achieve their academic potential. The courses SkillForce deliver significantly reduces the number of young people becoming Not in Education, Employment or Training (NEET) at 16. With their diverse life experiences and specialist skills, these instructors are excellent role models, something often lacking in young people's lives. Having served their country, these extraordinary men and women are now serving their local communities with phenomenal results.
