## Biographies

**Jim Cantle**, Global Manager of Market Analysis, Shell Trading

Jim graduated as a Chemical Engineer in 1981 and joined Shell in the same year. He initially spent 8 years based at a UK refinery in various Operations and Technology roles. At the end of the 80's he moved to Holland for an assignment in New Technologies which in fact focussed on Coal Gasification. A return to the UK some 4 years later meant he was back in the refining sector, but this time beginning to specialise in supply chain planning and optimisation. At the end of the 90's he moved to London and held a variety of roles looking at network optimisation, supply chain balancing and work at the refinery / trading interface. After an assignment in the Shell European Base Oil business, he moved to a strategic planning role focussing on the broader landscape and asset valuations. 2010 saw a move to the Trading organisation within Shell where he heads up the Oil Markets Analysis Team with reports in Singapore, Houston and London.

**Lucrezia Reichlin**, Economist, London Business School, Former Director General, European Central Bank  
Lucrezia Reichlin is Professor of Economics at London Business School, non-executive director and member of the permanent strategy and risk committees of UniCredit Banking Group, and research director at the Centre for European Policy Research (CEPR). She is also co-founder of Now-Casting Economics Ltd, an economic forecasting startup publishing real-time 'now-casts' of current quarter GDP growth for the world's major economies using a state-of-the-art econometric model.

Between 2005 and 2008, Lucrezia was Director General of Research at the European Central Bank. She was founder and chair of the scientific committee of the Euro Area Business Cycle Network, a forum that facilitates interaction among euro area business cycle researchers. She is also a past chair of the CEPR dating committee for the euro area business cycle. From 2002 to 2003, Lucrezia served as a consultant to the Board of Governors of the U.S. Federal Reserve.

Lucrezia earned her PhD in Economics from New York University and has held a number of academic positions, including Professor of Economics at the Universite Libre de Bruxelles. She is a Fellow of the European Economic Association and a member of the scientific council of several research institutes around the world. She has published numerous academic papers on econometrics and macroeconomics, and is an expert on forecasting, business cycle analysis, and monetary policy. Some of the methods she has developed, in particular those for now-casting, are widely used in central banks around the world.
