About WellChild (www.wellchild.org.uk)

WellChild provide essential practical and emotional support for seriously ill children, young people and those who care for them across the UK to ensure they receive the best possible quality of care. Every parent knows that caring for a sick child is hard. Caring for a child with a serious illness of life-threatening condition is a physical, financial and emotional struggle. Sometimes hospital stays are essential, but many seriously sick children could be cared for at home, if their families had the specialist support they needed. The WellChild Children's Nurse programme provides a vital service to families of children and young people with long-term complex health needs. With their support children are able to leave hospital and return home whenever possible. Our ambition is to extend this vital service countrywide.

About The Art Room

The Art Room is a UK charity working with children and young people to increase their self-esteem, self-confidence and independence through art. Practitioners work with children and young people aged 5 to 16 at The Art Rooms in Oxford and London to offer art as therapy for those who are facing challenges in their lives. Our aim is to help those most in need; they may be disengaged from mainstream education, disruptive, withdrawn, or have learning difficulties. Art works powerfully to engage with the students, helping them to learn and achieve success. The Art Room provides them with a safe, nurturing, positive, non-judgemental environment in which to do this.

Since it started in 2002, The Art Room has grown and has been able to help more children each year - with proven positive results. We already see over 1000 students each year and we have ambitious targets to open new Art Rooms across the country, aiming to create a national network which will reach many more.
