100WHF invites you to bring your daughter, niece, or any young woman you mentor as part of *Celebrating Education - Investing in the Next Generation* initiative.

Cybersecurity breaches are an ever-present and constantly evolving threat that can expose even the strongest firms. Avoid being the next cybersecurity headline - join us for a panel discussion on this dangerous modern phenomenon. Panelists will reveal best practices in tackling this moving target. Bring questions on how to best protect your firm and yourself during Q&A.
