Author of Novel Opening Belle Discusses How Women Fare on Wall Street

May 25, 2016 at 6:30 PM
New York

She was the youngest woman Managing Director at Bear Stearns. Maureen Sherry survived and thrived in the testosterone-fueled environment that typified sales and trading on the bond desk in the 1990s-2000s. Her novel, *Opening Belle*, taps her experiences and portrays the underbelly of work and life for women working on Wall Street. How has the environment changed since she left the desk - or has it? How is working on Wall Street different for women in the hedge fund industry? Hear some of the lessons Sherry learned and ask questions to gain perspective on timely issues for women working in finance. Invite a colleague to join us for a lively conversation, learn about 100WHF and network with Next Gen peers.
